Hi guys,

In trying to address the major concern about teaming discussed yesterday, I came up with the attached two paragraphs for the exec sum introduction of the team. My goal with this intro is to address 'business relationship, purpose on team, responsibility, and interaction – in as little words as possible'.

I want to see if you think I am on the right track before taking things further. Also, can you share with other J4 reviewers whose email I do not have handy? THANKS in advance for any input.
